# Introducing our **Graduate Programme**

## What is it?

**A 3 day training and assessment centre to efficiently and smartly find your dream job in a small food & drink brand**

In July, we will be running 2 days of training and 1 assessment day for the best graduates and entry level superstars we can find. We will use this to springboard you into the world of FMCG while also making it easier for you to hit the ground running when you land in a business.

## What do I get?

**Training led by industry experts offering a route into the most exciting side of the food and beverage space**

You'll have to make it through our initial screening, 2 days of training and a final high-intensity assessment centre; but it will be worth it. You'll feel equipped to take on anything thrown your way in your new job, allowing you to show your managers and founders what you're capable of from day 1.

# How the process works

## Register your interest

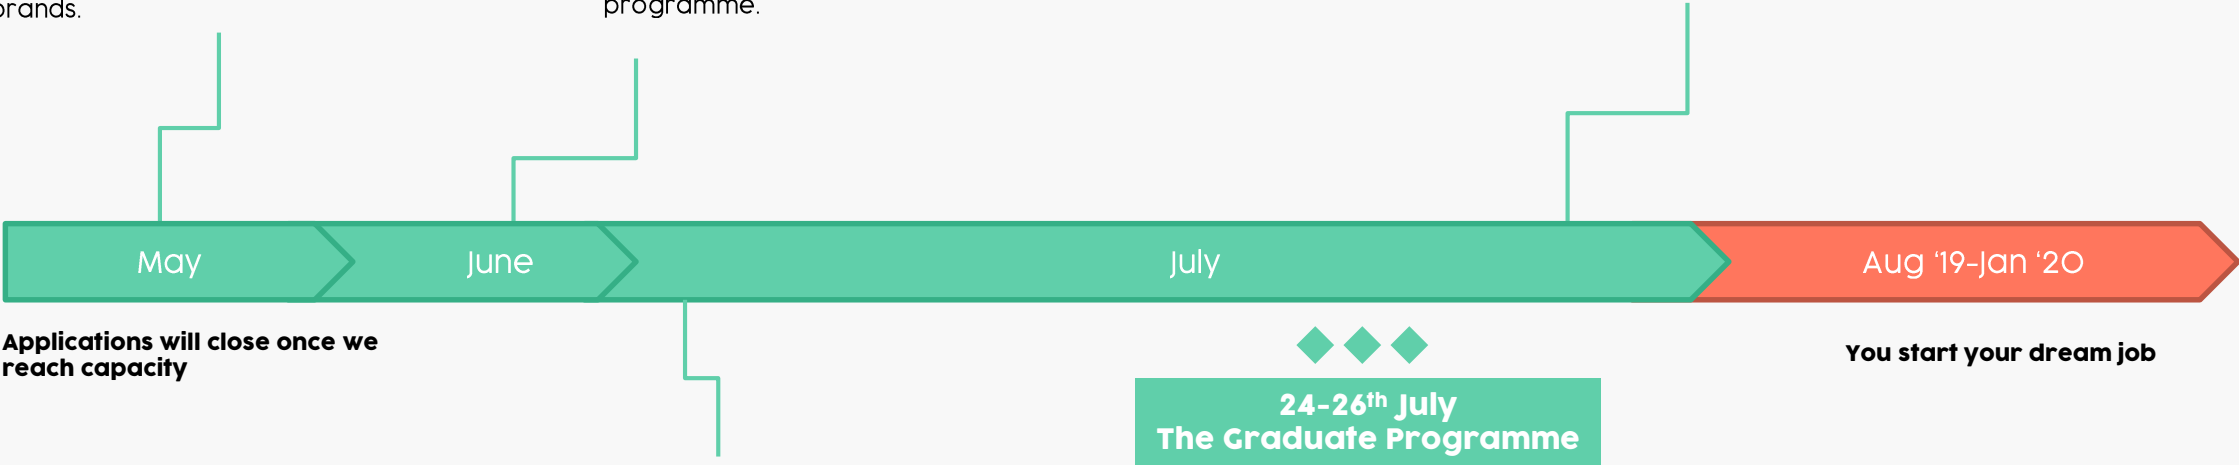

Complete our registration form to let us know why you would be an incredible addition to one of our brands.

## CV pre-screening

You go through a series of interviews and screening to ensure you're a great fit for the programme.

## Offers made and accepted

Brands make offers to the superstar grads they wish to join their team.

Applications will close once we reach capacity

## Brands confirm their interest in you

3 weeks before the programme, brands will shortlist the candidates they'd like to meet on the final assessment day.

You start your dream job
